To All the Klixo Team,

After 3 years of presenting with other companies with very poor results and virtually no rankings in Google, we changed to Klixo.

Klixo proposed a plan to get KiwiSpan noticed on the web, they achieved this within the time frame and on budget, we now have more than 5 times the visitors to our web site, all because of the work Klixo has done.

We have loads of statistics, which gives our company a wealth of information.

I have found Klixo to be extremely helpful with a positive can do attitude, with communication and commitment to reply to my questions the best I have experienced.

I will continue to use Klixo as they allow me to concentrate on our main business and have only great things to tell prospective customers and would without hesitation recommend Klixo to my closest friends.

Kind Regards

Bryan Snow
